

character kit sheet

draw ONE character into the boxes, thick marker, flat colour • the red dots are the joints: draw around them, never move them • give the torso hips — the legs tuck up behind them • nothing is mirrored: an empty optional box means the LEFT drawing stands in as-is • photograph flat, all four black squares in frame, then: `python3 pipeline/kit.py ingest photo.jpg characters/<name>`

torso + hips — no head/limbs

head — mouth closed

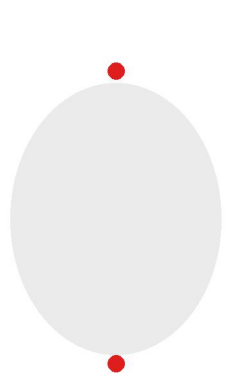

head — talk (optional)

head — blink (optional)
