Aaron Steele

Education Sales Consultant

Adelaide, South Australia | 0423 153 935 | steele.aaron@outlook.com | aaronsteele.vercel.app

PROFILE

I have spent ten years on the other side of the sales desk: building the CRMs, pipelines and follow-up automation that sales teams run on, and making sure the data in them is right. I know vocational education from the inside, having led the technology side of South Australia's VET strategy and delivered CRMs for an online business school and for universities. I now want to be the person on the phone, using the pipeline rather than building it.

WHAT I BRING TO THIS ROLE

- **Vocational education:** led the technology side of the SA Department for Education's vocational education strategy.
- **Education CRMs:** delivered a new student CRM at the Australian Institute of Business, and CRM and ERP rollouts for universities.
- **Pipeline discipline:** ten years configuring HubSpot, Salesforce and Zoho pipelines, follow-up sequences and sales reporting.
- **Data integrity and compliance:** found a $3.8 million error in a charity's records and rebuilt 37,729 donations against the right people.
- **Conversations that end in a decision:** a decade of workshops with people who want different things, from executives to frontline staff.

EXPERIENCE

AI and Automation Consultant, Independent — 2016 to now

- Find, scope, price and win my own client work alongside employment, then deliver it.
- Built Doorknock, a free sales-prospecting tool that researches a company before a salesperson calls and files the result straight into HubSpot.
- Technical lead rescuing a national charity's stalled HubSpot migration: **19,350 contacts and 37,729 donations** reconciled to the books, then connected to Stripe and Xero.

Technology Lead, Vocational Education Strategy, SA Department for Education — 2020

- Led the technology side of the state's vocational education and training strategy.

Business Analyst, Australian Institute of Business; Department of Industry — 2015 to 2018

- Delivered a new student CRM at the Australian Institute of Business; network reform at a federal department.

Consultant, DVE Business Solutions — 2018

- CRM and ERP rollouts for universities.

Senior Business Analyst and Architect, BHP — 2022 to now

- Critical-infrastructure systems; mentor the junior analyst team.

Lead Business Analyst, City of Marion — 2021 to 2022

- Led analysis for a council-wide asset management platform.

Business Analyst, SA Police — 2020 to 2021

- Project Shield, rebuilding the systems frontline officers use.

Business Analyst, Services Australia — 2018 to 2020

- National Redress Scheme and veterans' entitlements: turned legislation into the rules that decide who qualifies.

SYSTEMS AND METHODS

HubSpot, Salesforce, Zoho, Microsoft Dynamics, Zapier, Make, n8n, Xero, Stripe
